

CCE-3/4 Series Bander

Benefits

- ◊ Foolproof operation - Inserting a bundle of bank notes into the machine aperture automatically causes the machine to place a paper band securely around them. The band is thermally sealed, in order to provide a secured bundle of notes, for safer handling and transportation.

Features

- ◊ Production speed of 40 bundles per minute easily achieved for standard 100 note bundles.
- ◊ Microprocessor controlled for accurate, consistent operation.
- ◊ Band position is selectable from two positions across the length of the bundle.
- ◊ 'CE' Approved.

Options

- ◊ Name, logo and signature/date box can be pre-printed on the paper tapes by request, (minimum order cost applies).
